National Initiative on Civic Education (NICE)

The National Initiative on Civic Education is a Government of Fiji project, sponsored by EU and NZAid.

The NICE project seeks to raise civic awareness by informing the people about their rights and responsibilities, about being good citizens, about understanding the processes of government and about the integrity of our institutional pillars.

Along with seven other organizations, TI Fiji is involved with the project as an implementing partner. TI will use drama to inform and educate the public in the coming months.

Open Budget Initiative (OBI)

OBI is a project executed TI Fiji with the support of the Open Budget Priorities Centre in Washington D.C, USA. The aim of this project is to provide government officials, academics, and community leaders with an independent and comparative measure on the level of accountability and transparency in our Government budget.
